Storm Water Survey Answer Sheet

About You

1. What is your affiliation with UCSC?
   - Faculty
   - Staff
   - Student
   - Community Member

2. What is your Division/Major?
   - Academic Personnel
   - Arts
   - Business and Administrative Services
   - Humanities
   - Information Technology
   - Physical & Biological Sciences
   - Planning and Budget
   - Social Sciences
   - School of Engineering
   - Student Affairs
   - University Relations
   - Other

3. How many years have you been associated with UCSC?
   - 0-1
   - 2-4
   - 5-10
   - 11-20
   - 21+

About Storm Water Runoff

1. What is not allowed in the storm drains on campus? (Check all that apply)
   - Irrigation water
   - Drinking water
   - Hose Water
   - Raw sewage, household toxics, vehicle fluids

2. What is storm water runoff? (Check all that apply)
   - Rain water unable to percolate into ground
   - Rain water flowing over impervious surface
   - Water flowing from irrigation systems
   - Water flowing from washing vehicles

3. Will water entering a storm drain on Campus be treated?
   - Yes
   - No
4. Car washing on campus by UCSC residents is strictly prohibited.
   - True
   - False

5. Does storm water leave the UCSC campus?
   - Yes
   - No
   - Both. UCSC storm water outfalls to a natural drainage system where most of the water is retained on Campus but there are a few drainages where storm water eventually leaves Campus.

6. Have you heard of UCSC’s Storm Water Management Program?
   - Yes
   - No

7. If you responded “yes” to the last question, where could you find the latest copy of the Storm Water Management Plan? (Check all that apply)
   - McHenry Library
   - Environmental Health & Safety Office
   - UCSC Storm Water website: [cleanwater.ucsc.edu]
   - Not sure

8. What geographical areas are covered under the UCSC Storm Water Management Plan? (Check all that apply)
   - Main Campus
   - Long Marine Lab
   - UC Monterey Bay EST
   - Delaware

9. Have you noticed the “No Dumping/Protect the Environment” stencils at storm drains around campus?
   - Yes
   - No

10. If on campus, what should you do about an accidental spill of a cleaning agent outside?
    - Clean up ASAP
    - Report a concern on the [cleanwater.ucsc.edu] website
    - Call the Storm Water Management Program office at 459-2553
    - Report spill to Environmental Health & Safety

11. What areas of storm water at UCSC would you like to learn more about?
    - Construction
    - Erosion
    - Treatment
    - Natural Drainage System
    - Low Impact Development
